

Colorado Immunization Information System (CIIS)

Child care programs and schools can access immunization records through this statewide database. The reports are documented on a CDPHE-approved immunization certificate and can be directly printed off for the childcare program's records.

1. Create a CIIS account:
<https://www.colorado.gov/pacific/cdphe/ciis-child-care-provider-users>
2. Complete the online CIIS training:
<https://www.colorado.gov/pacific/cdphe/ciis-school-training>
3. Read the confidentiality and security policy

Immunization Data Reporting Process - DUE JANUARY 15, 2021

Once you have the immunization records and/or medical or non-medical exemptions on file for each enrolled child, you will need to report your data to the state. Here is a link to get you started: [School and child care immunization data reporting | Department of Public Health and Environment](#)

1. Use a worksheet to collect the data prior to entering it into the database:
[Child Care Immunization Data Worksheet](#)
[School Immunization Data Reporting Worksheet](#)
2. Create an account if you currently don't have one:
<https://www.healthinformatics.dphe.state.co.us/>
3. Enter your data into the database with the data collected on the worksheet.
